

## M12 female 90° A-cod. with cable shielded

PVC 5x0.34 shielded gy 5m

Female 90° M12, 5-pole shielded

with cable sleeves

Plastic housings with good resistance against chemicals and oils.

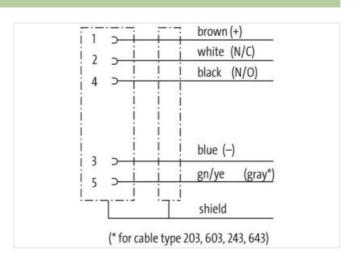

The resistance to aggressive media should be individually tested for your application. Further details on request.

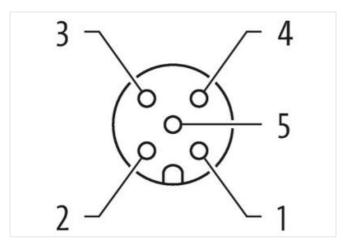

Further cable lengths on request.

Environmental characteristics | Climatic

| Operating temperature min.             | -25 °C                                                                                                                                                |
|----------------------------------------|-------------------------------------------------------------------------------------------------------------------------------------------------------|
| Operating temperature max.             | 85 °C                                                                                                                                                 |
| Additional condition temperature range | depending on cable quality                                                                                                                            |
| Important installation notes           |                                                                                                                                                       |
| Note on strain relief                  | Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties.                                                   |
| Note on bending radius                 | <b>Attention:</b> Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. |
| Conformity                             |                                                                                                                                                       |
