

## M12 female recept. A-kod. with cable rear

PUR 4x0.34 gr UL/CSA 5.0m

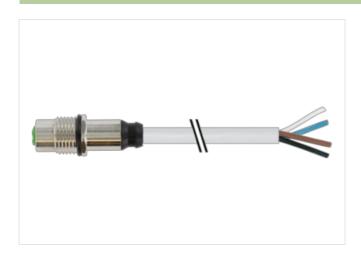

Flange female M12, 4-pole Rear mounting

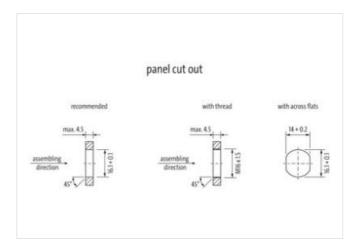

Further cable lengths on request.

The resistance to aggressive media should be individually tested for your application. Further details on request.

Product may differ from Image

| Cable length             | 5 m               |  |
|--------------------------|-------------------|--|
| Side 1                   |                   |  |
| Tightening torque        | 0,6 Nm            |  |
| Mounting method          | inserted, screwed |  |
| Coating contact          | gold plated       |  |
| Family construction form | M12               |  |
| Thread                   | M12 x 1           |  |
| Coding                   | A                 |  |
| Material contact         | Copper alloy      |  |

| Environmental characteristics   Climatic |                                                                                                                                                       |
| Operating temperature min.               | -25 °C                                                                                                                                                |
| Operating temperature max.               | 85 °C                                                                                                                                                 |
| Additional condition temperature range   | depending on cable quality                                                                                                                            |
| Important installation notes             |                                                                                                                                                       |
| Note on strain relief                    | Protect the connectors by suitable measures from mechanical loads, e.g. by the usage of cable ties.                                                   |
| Note on bending radius                   | <b>Attention:</b> Observe the permissible bending radii when laying cables, as the IP protection class can be endangered by excessive bending forces. |
