

## M12 male 0° / M12 female 90° A-cod.

PUR AWG24+22 shielded vt UL/CSA+drag ch. 3m

DeviceNet, CANopen Male straight – female 90° M12 – M12, 5-pole shielded Plastic housings with good resistance against chemicals and oils. The resistance to aggressive media should be individually tested for your application. Further details on request. Further cable lengths on request.

| Outer diameter wire insulation (Data)           | 1,5 mm   |
| Tolerance outer diameter wire insulation (data) | ± 53 %   |
| Ingredient freeness wire insulation (Data)      | lead-free, CFC-free, halogen-free                    |
| Amount wires (Data)                             | 2  |
| Amount strands wire (Data)                      | 19   |
| Diameter of single wires (Data)                 | 22 AWG   |
| Conductor crosssection wire (Data)              | 22 AWG   |
| Material conductor wire (Data)                  | copper stranded wire, tinned                         |
| Electrical function wire (data)                 | Power  |
| Nominal voltage AC max.                         | 300 V  |
| Current load capacity (standard)                | to DIN VDE 0298-4                                    |
| Current load capacity min. wire                 | 4,5 A  |
| Current load capacity min. Wire (Data)          | 6 A  |
| Electrical function wire                        | Data   |
| Electrical function wire (data)                 | Power  |
| Characteristic impedance                        | 120 Ω ± 10 % @ 1 MHz                                 |
| Electrical resistance line constant wire        | 78 Ω/km  |
| Electrical resistance coating wire (Data)       | 54 Ω/km  |
| AC withstand voltage (wire - wire)              | 2 kV @ 60 s  |
| Electric capacitance                            | 40000 pF/km  |
| AC withstand voltage (wire - shield)            | 2 kV @ 60 s  |
| Min. operating temperature (static)             | -40 °C   |
| Max. operating temperature (fixed)              | 80 °C  |
| Operating temperature min. (dynamic)            | -30 °C   |
| Operating temperature max. (dynamic)            | 70 °C  |
| Flame resistance                                | UL 1581 § 1100 FT2   IEC 60332-2-2   UL 1581 § 1090  |
| chemical resistance                             | Good, application-related testing                    |
| Gasoline resistance                             | Good, application-related testing                    |
| Oil resistance                                  | DIN EN 60811-404   Good, application-related testing |
| Bending radius (installation)                   | x Outer diameter                                     |
| Bending radius (fixed)                          | 6 x Outer diameter                                   |
| Bending radius (dynamic)                        | 10 x Outer diameter                                  |
| Travel speed (C-track)                          | 1 Mio.   |
| No. of torsion cycles                           | 2 Mio.   |
| Torsion stress                                  | ± 30 °/m   |
| Torsion speed                                   | 35 cycles/min  |
